

## Here's how Yew Tree Farm was transformed into Hill Top for the film Miss Potter

Here's Yew Tree Farm "before". Note the walls are white and there is no front vegetable garden.

Firstly, a wall was built to replace the fence in front of the farm house. This would allow for the authentic look of drystone wall and vegetable garden gate.

Next the walls were painted the darker grey/green colour which is the colour of the real Hill Top.

Then the garden was laid out and all sorts of specially grown plants brought in (it was April but the garden needed to look like summer).

And this is "Hill Top" in its final form. The fact that it is still significantly different in many ways and in a different setting still confuses some visitors who do complain that Hill Top isn't "quite right"!
