

Make your own Wind Turbine

- Step 1:** Carefully cut around the box
- Step 2:** Colour in the square with pictures, your name, or whatever you like. Don't forget to do the back.
- Step 3:** Carefully cut down the diagonal lines as far as the stop point.
- Step 4:** Fold the corners with the star on into the middle star and glue in place.
- Step 5:** Choose a piece of wood and get a drawing pin. Be careful of your fingers!
- Step 6:** Ask an adult to help you push the drawing pin through the centre of your wind turbine onto the piece of wood.
- Step 7:** Move your wind turbine around until it spins in the breeze!
